There were a few less than a hundred of them. Not to exceed a dozen had overcoats or gloves. They had slept last night on pallets of straw in the airy and cheerless circus tent, and they were greeted this morning by the disagreeable discovery that detailed arrangements had been made for feeding them.

Several hundred persons watched their departure from Masillon, about 3000 persons assembled at the temporary camp at Redurban and a host greeted the cruspders at Canton. To-night they are sleeping at Camp Lodington, in the eastern part of Canton,

SAN ANTONIO, Tex., March 25 .- The Southern Pacific railroad officials here received word to-night that the United States industrial army of several hundred men were put off the trains at a siding near Finlay station, on the El Paso division and that trains were run through without stopping.

The so-called army broke the lock of the switch and threw it open, causing the next east-bound train to take the siding.

Thirty of the commonwealers spent the night as ledgers at the Massillen police station. They comprised two entire groups who could not be found when they were needed for picket duty. They were on hand for breakfast.

At 8 o'clock Marshal Louis Smith, otherwise the "Unknown," summoned the men to camp together and they were found to number eleven groups. They were organized into a commune. Smith drilled them on the meadows for half an hour. He has added several formalities of military discipline to the rules of the commonweal. One of them is the plan of having them march in files of two, and a more surprising innovation is the adoption of military salutes.

A man who shouted "Here, Browne," at the California reformer half across the field was given a raking over by Smith. Among other things he said that the proper caper was to ask for Chief Marshal Carl Brown and salute when his attention is secured.

Thus the despised military system is being introduced, even though companies are called communes and regiments communities. The eleven groups consolidated to-day are called the Chicago At 8 o'clock Marshal Louis Smith, other

Massillon resembled the moving of an oldtime country circus more than anything else There was no goddess of peace in the procession, as Coxey had designed, his divorced wife refusing to permit her daughter to go with army in that capacity.

Coxey's son Jesse, a boy of 16, was mounted on a blooded stallion from the stock farm and wore a military uniform. Browne and the other officers were similarly mounted, while the "general" rode in a pheton behind one of his layorite horses. Mrs. Coxey, her three-year-old son, and the housekeeper for the Coxeys rode in a burgy.

"THE CITY WITHOUT A CHURCH." Dr. Kent Thinks Heaven Can Be Worked Out on Earth. Rev. Alex. Kent spoke yesterday morning

at the People's church, 423 G street northwest, on "The City without a Church." "Religion begins in simple childlike romance," said Dr. Kent, "from which state it passes into the more elaborate rituals and im-

# TO DEFEAT THE TARIFF BILL

Republican Senators Will Endeavor to Have It Talked to Death.

**ELECTION CASES IN THE HOUSE** 

The Joy-O'Neill Contention Comes Up Tomorrow and the Republicans Will Filibuster to the Last-Continuous Senate Sessions-House Appropriation Bills.

Inquiry among Republican Senators as to the policy they will pursue with reference to velops the fact that they are yet undecided as to whether they will move to recommit the bill upon the commencement of the debate. Monday week. This was their first plan when the bill was received from the House and the Democratic majority of the Finance Committee refused to grant hearings, but there are indications that they have reconsidered, and will not move in this direction, at least not at the beginning of the debate.

There is no indication, however, that they have abated their purpose of contending for every point of advantage and forcing, if possible, full debate on every proposition contained in the bill. They expect the general debate to continue for at least a month, and hope to have every schedule discussed paragraph by paragraph afterward. Some of them intimate that they consider it may be possible by this course to delay action, so as to render it impossible to pass upon the bill during the present session.

The purpose of the Democrats is to permit the Republicans to do the greater part of mit the Republicans to do the greater part of the talking. There will be comparationly few general speeches upon the bill on the Democratic side of the chamber if the members of the Finance Committee can control the matter. Some of the members of this committee announce that they will not make speeches upon the bill while it is being considered as a whole, and announce that their policy is not to be led into unnecessary debate upon the various schedules. They say they will make explicit statements of their reasons for the various changes and then refrain from further discussion of them, however much they may be batted by the Republicans.

After there shall have been sufficient time for legitimate debate they will probably ask for continuous sessions. The Bemocratic

After there shall have been sufficient time for legitimate debate they will probably ask for continuous sessions. The Bemocratic members of the Finance Committee think the bill can be disposed of by the 1st of June.

The House will devote the coming week to the contested election cases. To-morrow is District of Columbia day, and it is probable that a portion of the time will be given to the consideration of bills reported from the District of Columbia Committee, after which the Post Office appropriation bill, which was under discussion when the House adjourned yesterday, will be called up and disposed of. According to the arrangement made on Friday the O'Neill-Joy contested election case will be called up on Tuesday. Inasmuch as the Republicans are already committed to the policy of filibustering against the election cases, they will consume the entire week. The Republicans will demand the presence of a Democratic quorum at every step in the parliamentary proceedings. Every means known to parliamentary law will be used to prevent diamentary proceedings. Every means known to parliamentary law will be used to prevent the seating of O Neill and English, the Demo-

cratic contestants from the Eleventh Mis-souri and Fifth California districts, respectsour and First Camorina districts, respectively.

Should the cases by any chance be disposed of before the end of the week, the House will resume the consideration of the appropriation bills, the army appropriation bill being next in order. These routine matters will probably occupy the attention of the House until the tariff bill returns from the Senate.

The probabilities are that the week in the

diately after the disposal of the McGarrahar bill. Senator Dolph also intends to make an effort, if opportunity offers, to have the bill for the relief of certain settlers on the public

lands considered.

The fortifications appropriation bill is now on the calendar and in position to be taken up for action at any time. Senator Harris may also move, in accordance with notice given, for a reconsideration of the printing bill, but it is presumed that his action in this matter will depend upon the attendance of Senators, many of the friends of the bill being now absent. Senator Turpie has evinced a desire to have his resolutions concerning the annexation of Hawali voted upon before the tariff bill is taken up, but it is doubtful in the face of Senator Dolph's opposition whether this can be done.
